PROFESSIONAL EXPERIENCE

AI Training Specialist MERCOR	2026 - Present
- Evaluate and train Large Language Models (LLMs) to improve reasoning, factual accuracy, instruction following, and conversational quality. - Design, test, and optimize prompts across business use cases to strengthen model performance and reliability. - Conduct detailed quality assurance reviews while ensuring alignment with project guidelines and AI safety standards. - Analyze model outputs, identify weaknesses, and provide structured feedback supporting continuous AI improvement. - Collaborate with multidisciplinary teams to improve model behavior, quality, and user experience. - Research emerging AI technologies and document findings, evaluations, and recommendations.	
Independent Delivery & Logistics Contractor FRAYT	2022 - Present
- Manage time-sensitive same-day and scheduled deliveries for business customers through an on-demand logistics platform. - Coordinate pickups, route priorities, delivery windows, and real-time communication to meet service commitments. - Maintain accurate proof-of-delivery records and handle customer goods with care, discretion, and professionalism. - Independently manage scheduling, vehicle readiness, route planning, and customer service in a fast-paced environment.	
Customer Success & Business Development Representative INFINOVA MANAGEMENT	2025 - 2026
- Built trusted client relationships through consultative communication and customer-focused solutions. - Managed customer accounts throughout the sales and support lifecycle. - Identified customer needs and recommended tailored solutions aligned with business goals. - Collaborated with internal teams to improve customer satisfaction, business outcomes, and retention.	

PROFESSIONAL EXPERIENCE - CONTINUED

Operations Manager

2023 - 2025

NY SPOT CLEANERS

- Managed day-to-day business operations while maintaining exceptional customer service standards.
- Supervised employee scheduling, onboarding, coaching, and performance management.
- Oversaw inventory management, vendor relationships, payroll, and financial reporting.
- Implemented operational improvements that enhanced workflow efficiency, productivity, and consistency.
- Maintained quality assurance standards across all operational activities.

Operations, Finance & Customer Success Manager

2020 - 2023

RIDGEMONT CLEANERS

- Directed daily operations across finance, payroll, scheduling, customer service, billing, and administrative management.
- Managed financial reporting, invoicing, payroll processing, and operational documentation with accuracy and discretion.
- Coordinated communication between ownership, employees, vendors, and customers to maintain efficient service delivery.
- Improved internal workflows through process optimization, operational organization, and clear accountability.
- Resolved customer concerns while maintaining strong satisfaction and service standards.
- Supported executive leadership through operational planning and day-to-day business decision-making.

SELECTED AI PROJECTS

AI PRODUCTIVITY & BUSINESS AUTOMATION

Designed AI-assisted workflows that improve operational efficiency, research, communication, and documentation using modern Generative AI technologies.

PROMPT ENGINEERING PORTFOLIO

Created structured prompt libraries for customer success, executive communication, HR, business operations, marketing, research, and knowledge management.

AI MODEL EVALUATION

Evaluated ChatGPT, Claude, Gemini, Perplexity, Microsoft Copilot, and Grok across reasoning, instruction following, factual accuracy, business usability, and workflow efficiency.

EMERGING AI RESEARCH

Continuously research and evaluate AI technologies to identify practical applications across customer success, operations, executive productivity, recruiting, documentation, and workflow automation.

TECHNICAL PROFICIENCIES

ARTIFICIAL INTELLIGENCE

ChatGPT • Claude • Gemini • Perplexity • Microsoft Copilot • Grok
• Midjourney • DALL-E • Sora

PRODUCTIVITY & COLLABORATION

Microsoft Office Suite • Google Workspace • Slack • Notion • Trello
• Zoom • Canva

LEADERSHIP PHILOSOPHY

"I believe Artificial Intelligence should empower people - not replace them. My goal is to help organizations successfully adopt AI by combining technology, operational excellence, and human-centered leadership to build smarter businesses and deliver exceptional customer experiences."

EDUCATION, CERTIFICATIONS & LANGUAGES

EDUCATION

Rutgers University-New Brunswick
Bachelor's Program | 2022-2026
North Bergen High School
High School Diploma | 2019-2022

CERTIFICATIONS

Project Management Professional Certificate
Financial Modeling & Valuation Analyst
Certified AI & Machine Learning Professional
